

UnderCover 5, "tween" pop sensation performs original pop music celebrating the friendship and joy of the 11-16 yr age group.

A highly publicised search through out the Gold Coast was conducted to discover the talent that would audition and finally become known as the Gold Coast's, "Tween," group, UnderCover 5. Individual "performance" identities have been adopted for each child in hope that all children in the community can identify with at least one of the UC5 members. A message of Friendship, Hope, Fun, Love and Peace is promoted through the songs as it explores subject matters relevant to the 'Tweens ' of today.

The first single release entitled "Turn It Up" was co-written by Diploma of Sound student (Gold Coast Institute of TAFE), Sam Shepherd aka Feeble Exit and is now accompanied by a high quality Music Video clip after a grant was awarded for it's production by RADF and Arts Queensland.

A further four original tracks have been recorded as part of the creation of UnderCover 5's first album. 2012 will see the release of a complete album including a compilation of fresh new hits for the Tween market. UnderCover 5 will be pursuing major record company representation as a move to share their music and message with Australia and the World.
